2013 – 2017, **3.24 GPA**

EXPERIENCE

Mobile Application Development Intern | IT Sutra Pvt. Ltd.
26TH FEB, 2017 – 10TH MAY, 2017
I learned the mobile application development & real-world software development practices while being as an intern at IT Sutra. I learned ionic framework along with angular for building cross platform mobile application. As it was my first professional experience, I developed not only the technical skills but also soft skills.

Jr. Mobile Application Developer | IT Sutra Pvt. Ltd.
11TH MAY, 2017 – 25TH FEB, 2018
During this period, I got involved in the development of mobile application for various private companies & NGOs. Inventory management, organization event management & employee management system were some of the domain that I worked on. I primarily worked on the technologies like ionic framework & angular.

Mobile Application Developer | Neoiris Systems Pvt. Ltd.
5TH MARCH, 2018 – 13TH FEB, 2019
Neoiris was mainly focusing on the Hotel & Restaurant Management System. I worked for the development of mobile platform while being here. The primary technologies that I used are ionic framework & angular while being here.

Web Development Trainee | Cotiviti Nepal Pvt. Ltd.
20TH FEB, 2019 – 15TH APRIL, 2019

After short experience in mobile application development, I wanted to build my career in web development. I learned various web technologies like Java, Spring, Angular, etc. along with the Oracle Database while being trainee at Cotiviti. The mentors helped me to get the most out of myself.

Associate Software Engineer | Cotiviti Nepal Pvt. Ltd.
16TH APRIL, 2019 – 29TH FEB, 2020

As Cotiviti primarily focuses on the US based healthcare analytics, it has one product named "*Medical Intelligence*" out of many. I got engaged in the revamping of legacy application to new application. I worked on top of architectural design like microservices & single page applications. I primarily worked on technologies like Java, Spring, Angular & Oracle DB.

Software Engineer I | Cotiviti Nepal Pvt. Ltd.
1ST MARCH, 2020 – PRESENT

I still continue to work with Cotiviti. Therefore, there's not major difference in my responsibilities since I was an Associate Software Engineer here, but only on the level of seniority. In this job period, I continued working on what I was doing previously & I also got involved in innovative events like hackathon.

ACTIVITIES

I'm a wayfarer person. I love trekking & hiking. I also have various beautiful experiences & memories of trekking & hiking. One of the most precious moment was being in the Everest Base Camp from where I got to see the Mt. Everest just in front of me. Besides trekking & hiking, I also love to sing & dance along.
